### **HAECO GROUP LAUNCHES “INSIGHT” DIGITAL PLATFORM POWERED BY REVIMA’S FLIGHTWATCHING SOLUTION**

HAECO Group announced today at MRO Asia-Pacific 2019 its selection of Revima’s Flightwatching predictive maintenance tool to power its inflight component and aircraft monitoring solution, INSIGHT.

INSIGHT is an online platform that provides real-time monitoring and analysis of critical airline data which, together with remote troubleshooting, will bring operational value to airlines. In the next phase, INSIGHT will also provide key component reliability data for HAECO ITM’s customers, facilitating preventive action against component defects.

Revima’s Flightwatching solution includes significantly enhanced data analytics to accurately predict impending failures and deteriorated performance of components, making it possible to take preventive action prior to aircraft or system operational defects. Flightwatching introduced this software in 2013, taking advantage of web-based tools, advanced graphic interfaces, big data analytics and patented aircraft remote diagnosis procedure.

Richard Kendall, HAECO Group Director Airframe Services, said: “We are delighted to launch INSIGHT in collaboration with our partners at Revima and Flightwatching. In developing technological opportunities for the future, HAECO is committed to delivering practical digital solutions that will generate operational value for our customers.”

“We are proud and excited by this agreement with HAECO, and look forward to assisting this leading aircraft engineering and maintenance service provider in developing their predictive maintenance solutions to the market,” said Olivier Legrand, Revima Group President & CEO.

**More about Revima – [www.revima-group.com](http://www.revima-group.com)**

Revima is a leading independent MRO (Maintenance, Repair & Overhaul) solutions provider, specialised in APU, Engine Parts and Landing Gear for civil and military aircraft through five dedicated services: Repair & Overhaul, Engine Parts Repair, Material Solutions, Fleet Management and Leasing.

With committed and passionate employees across locations in France, Asia, North America and the Middle East, Revima boasts over 60 years of MRO expertise. Revima supports aircraft operators, lessors, and repair stations worldwide, positioning this company as one of the most experienced MROs in the world. Revima is an EASA & FAA Part 145 certified organisation, as well as benefiting from approvals from numerous agencies.

In February 2019, Revima acquired Flightwatching, a Toulouse-based start-up specialising in digital analytics, visualisation, and predictive maintenance software and solutions for airlines, MROs and OEMs, with the objective to reinforce its fleet management service offering.
