

Revima

SERVICE
IS OUR PASSION

WWW.REVIMA-GROUP.COM

A man in a dark polo shirt, safety glasses, and gloves is working on a large metal component in a factory. He is using a tool to adjust or inspect the part. The background is filled with industrial machinery and bright lights, creating a high-tech manufacturing atmosphere.

ABOUT US

OUR VISION

TO EXPAND OUR WORLD
CLASS MRO SOLUTIONS,
AND BE EVEN CLOSER TO
OUR CUSTOMERS.

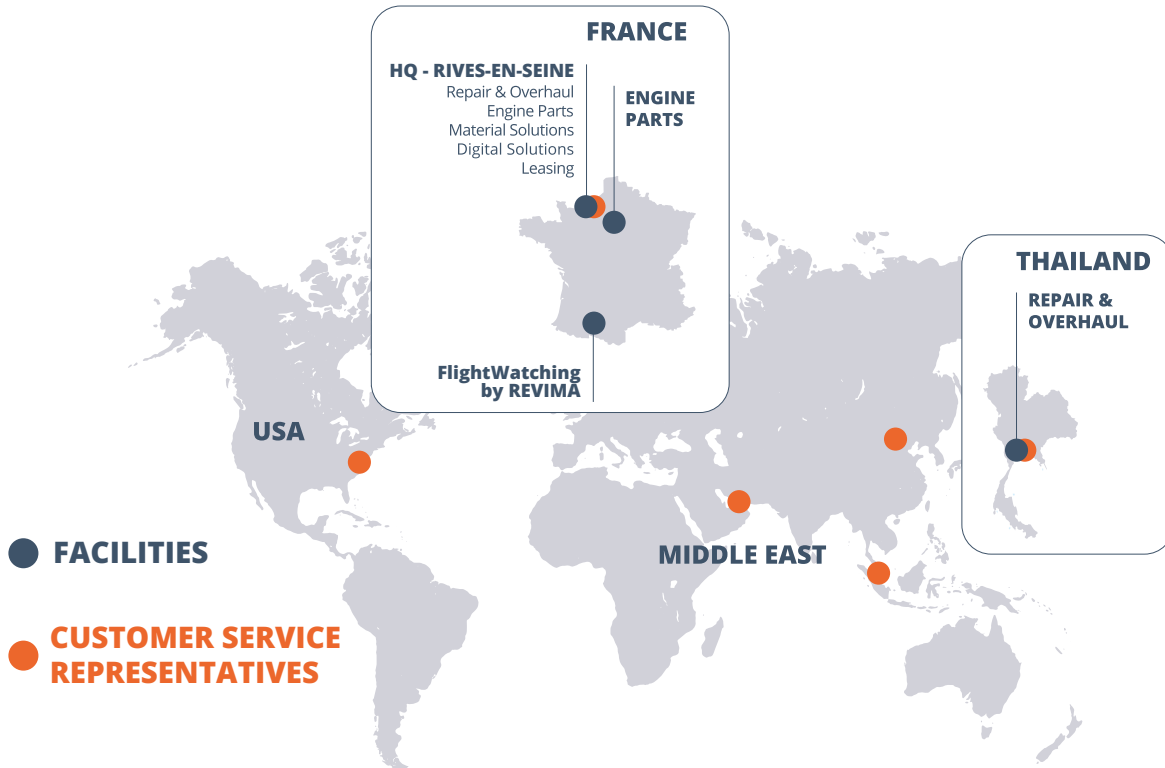

Revima is a leading independent MRO (Maintenance, Repair & Overhaul) solutions provider, specialized in APU, Engine Parts and Landing Gear, for civil and military aircraft through five dedicated services:

- REPAIR & OVERHAUL**
- ENGINE PARTS**
- MATERIAL SOLUTIONS**
- DIGITAL SOLUTIONS**
- LEASING**

With committed and passionate employees across locations in France, Asia, North America and the Middle East, Revima boasts over 100 years of history.

Revima supports aircraft operators, lessors, and repair stations worldwide, positioning the company as one of the most experienced MROs in the world, with extensive understanding of airline expectations, best in class value and services.

Revima is an EASA & FAA Part 145, certified organization, as well as benefiting from approvals from numerous agencies.

REPAIR & OVERHAUL

Revima has built a solid repair & overhaul expertise in APUs, Landing Gears and associated LRUs.

It is one of the world leaders in its sector thanks to on time delivery, dedicated customer support, worldwide AOG Support 24/7, comprehensive documentation delivery, back to birth traceability, pool access, full in-house repair capabilities.

ENGINE PARTS

This service benefits from highly specialized teams offering engine part repairs across more than 2500 part numbers, including: coating, brazing, welding & machining capabilities as well as additive manufacturing capabilities.

Turbine part repairs / Manufacturing
Routing / Welding / Forming /
Brazing / Riveting / Machining
Coatings: overlay, diffusion, plating
X-Ray / MPI / FPI
QEC management capacities

OUR SERVICES

REPAIR & OVERHAUL
ENGINE PARTS REPAIR
MATERIAL SOLUTIONS
FLEET MANAGEMENT
LEASING

MATERIAL SOLUTIONS

Airlines, lessors, MROs, no matter how frequent or extensive your needs are, our dedicated service, available 24/7/365, specializes in sourcing your spare requirements for all aircraft types.

Backed by a skilled team of engineers at Revima, this service offers custom-design and cost-attractive solutions based on overhauled or serviceable parts and components.

DIGITAL SOLUTIONS

Through advanced prognosis, diagnosis, analysis and trend monitoring, this service offers optimized on-wing operations. Integrated into one specific team, our Fleet Management service is the perfect one-stop shop for demanding operations.

Significantly enhanced data analytics accurately predict impending failures & deteriorated performance of components, making it possible to take preventive actions prior to aircraft/system operational defects.

LEASING

This service provides lease packages to satisfy many requirements thanks to its important inventory of rotatables.

Revima's expertise in high priority components make it the best solution to avoid costly depreciation and cash-flow impacts.

FACTS & FIGURES

100+ YEARS OF EXPERTISE

1 200+ EMPLOYEES

10 000+ LANDING GEARS

14 000+ APUS

Revima's rapid development and client-oriented approach results from its values and entrepreneurial culture.

Being active in a fast-growing market, driven by the continued increase of aircraft in service worldwide, the group has pursued its global development in answer to customer needs:

- With a new acquisition in France, near Paris, with the objective of reinforcing the company's component repair offering. The new facility specializes in engine parts repairs & special coatings.
- As well as the construction of a new industrial site in Thailand focusing on landing gear repair & overhaul and offering customers in the Asia Pacific region greater proximity.
- By strengthening its Fleet Management services in the field of advanced predictive maintenance. With the acquisition of Flight Watching, Revima offers customers significantly enhanced data analytics to accurately predict impending failures & deteriorated performance of components, making it possible to take preventive actions prior to aircraft/system operational defects.
